

Vern Moen

Vern is a music video and documentary film director, producer, cinematographer, and editor. He joins the Plastiki crew as director of the upcoming Plastiki feature film.

Getting his start by living in a 1973 Winnebago enabled him to purchase his own film equipment and, eventually, establish Long Beach Film Company out of Long Beach, CA. He's worked with bands Cold War Kids, The Deadweather, Delta Spirit, Mando Diao, Broken Bells, Nikki & Rich, and has filmed documentary stories across the world. The Plastiki film will be his second feature film.

His work is characteristic of being gritty and unconventional and often musically driven.

Vern is married to Melinda Moen, they have a son (who was born while Vern was onboard the Plastiki), William Grizzly Moen and live in Long Beach, California.
